PROFILE

Passionate Full-Stack Developer with a specialization in backend development and a recent graduate of ALX Africa Software Engineering program. Equipped with robust design skills, hands-on experience with modern JavaScript frameworks, and proficiency in cloud platforms. Adept at collaborating with cross-functional teams to deliver high-quality, scalable, and user-centric software solutions. Committed to continuous learning and staying up-to-date with emerging technologies.

EDUCATION

01/2023 – 03/2024
Kenya

Software Engineering ALX Africa

- Developed a web application for a class project using Django, HTML, JavaScript, and CSS
- Participated in a group project to design and implement a database system using SQL

WORK EXPERIENCE

03/2024 – present
Remote

Freelance Software Engineer Upwork

Provided backend development services to a variety of clients, specializing in Python, JavaScript, and TypeScript technologies.

Key Projects & Achievements

- Developed a scalable RESTful API for a client's e-commerce platform, resulting in a 20% increase in transaction processing speed.
- Implemented a data processing pipeline using Python and MySQL for a client's research project, enabling efficient analysis of large datasets.
- Designed and deployed a Node.js backend for a client's web application, ensuring seamless integration with frontend components.

Skills Utilized: Python, JavaScript, TypeScript, Node.js, REST APIs, MySQL.
